summary

I'm an enthusiastic developer focused on crafting web applications and software, with expertise in MERN stack development. As a front-end developer, I bring a strong foundation in HTML, CSS, and JavaScript, coupled with deep expertise in React.js. My ability to design and implement userfriendly interfaces, optimize web performance, and convert Figma designs into perfect Responsive Web Templates. My problem solving-skills sets me apart from others. I am currently preparing for Node.js, Express, and Mongo-DB. My future target is to become a MERN Stack Web Developer.

Work Experience

● Ecommerce

I am working on an E-commerce product called Orebi. My role is to develop Components, Routes, Hooks, Redux, form Retching API data presenting data on the website while maintaining the exact UI.

● Chatting App

I am Created a real-time chatting app using React and Firebase, enabling users to send and receive messages instantly. Implemented a user-friendly interface for message input and display.
